

Missionary Health Care 

Everyone experiences illness or injury in their family. Our missionary family is often thousands of miles from home and surrounded by unfamiliar physicians. Sometimes they must fly long distances for tests or treatment.

Think about the concerns, the uncertainty, and...the cost.

Nazarene missionaries' health, and that of their families, is vital to their ministries. They say over and over again what a blessing it is to know that they have a health plan that frees them to receive needed care without unnecessary anxiety.

You or your church participates in Missionary Health Care by giving Distinguished Service Awards, placing names on the Memorial Roll, sending Gifts from the Heart, and giving an offering. In this way, you help eliminate one more concern for our missionaries.

You also free World Evangelism Fund to be used more directly for evangelism.
