

Missionary Health Care

The Church of the Nazarene values its missionaries. When missionaries or members of their families are ill, they cannot give their full attention to their assignments. Missionary Health Care provides needed medical procedures, medications, and prevents financial worries, allowing missionaries to serve the people in the world area to which they are assigned.

Missionary Health Care funds are provided through four sources:

Gifts From the Heart

- Honoring/memorializing friends and loved ones for:
 - ✓ Special events, such as promotions, new arrivals, retirements
 - ✓ Special days, such as anniversaries, birthdays, Pastor Appreciation Sunday
 - ✓ In lieu of flowers or other memorials (a gift of \$50 or more automatically adds the person's name to the Memorial Roll—see below)
 - ✓ Just because...
- Presented by a church, a group, or an individual
- Cost—amount determined by the donor
- Cards and envelopes available in English and Spanish in your church's display rack

Memorial Roll

- Memorializing a deceased loved one, church member, or—as a form of outreach—member of the community
- Presented by a local church, a group, or an individual
- Cost—\$50 each (duplicate certificates for the same person are \$25 each)
- Children's Memorial Roll—for youth 18 and under—available now! Same costs (original and reprints) as certificate for adults

Distinguished Service Award

- Honoring church people who are living—for a particular area of service
- Presented by a church or a group within the church
- Cost—\$100 each

Missionary Health Care Offerings

Through plate offerings or faith promise giving, the whole church helps provide for the medical needs of Nazarene missionaries.

All money given to Missionary Health Care is used directly for this purpose and counts as Ten Percent Credit for your church.

Contact your local NMI president on how you can participate in Missionary Health Care giving.

Order Memorial Roll certificates and Distinguished Service Awards on the NMI Web site:
<http://www.nazarenemissions.org> to speed production time.
